

THEORATICAL KNOWLEDGE

- Process Engineering Principles
- Process Safety
- Energy Management
- Environmental Biotechnology
- Sustainability Development
- Circular Economy Theories
- Process Analysis And Design
- Supply Chain Management
- Research And Development

- Energy auditing
- Health and Safety Assessment
- Life Cycle Assessment
- Environmental Impact Assessment
- Carbon Footprint Assessment
- Water Footprint Assessment
- Process Synthesis
- Eco Design

PROJECT WORK

- Special Study Project
- MSc Research

PRACTICAL SKILLS
